

The poster presentations are split between class time on 2 November and 4 November. As such, I'm randomly partitioning the class with respect to the day on which a student is presenting. If you have a particularly large problem with the day you are on, contact me as soon as possible (i.e., by 22 October at the latest) and I'll see if it is possible to shift you to the other day. Please note that because of the peer grading I have to keep the numbers as even as I can on both days, so I may not be able to accommodate requests.
